DCU/ECTS Credits:

A student attending full time at the University will normally accumulate 60 ECTS (European Credit Transfer System) credits per year. A 3-year degree programme would have a total ECTS credit value of 180 and, similarly, a 4-year degree programme would have a value of 240 ECTS credits. For further information please refer to the University's Marks and Standards at: www.dcu.ie/registry/examinations/index.shtml

2. Assessment Methodology

In general, student performance is determined at the conclusion of each academic year. In taught programmes, this is based on a combination of attainment in end-of-semester examinations (both semesters) and continuous assessment of academic exercises carried out throughout the academic year. Research programmes of study are assessed on the basis of a submitted thesis and oral examination; although in the case of Masters Degrees the latter may be waived at the discretion of the examiners.

3. Pass Mark

The minimum mark required for a pass in a module is 40% unless stated otherwise in programme regulations. A candidate who fails to attain the required pass standard in all modules taken at a single sitting may, at the discretion of the Progression and Award Boards, be allowed to pass the module as a whole by compensation, subject to the approval of Academic Council.

4. Exemptions

In general, all modules passed by a candidate in a particular year of study should have such passes held in perpetuity unless removed as a consequence of a subsequent disciplinary decision approved by Academic Council.

5. Award Classifications: Primary Degrees

The award of an Honours Bachelor Degree is made at the levels given below. Normally the level of award is derived from the final year performance unless where stated otherwise in programme regulations. Honours level classifications are also indicated for interim stages of programmes.
